STEILLAGEN-CHARAKTERWEINE

Slightly botrytis infected grapes were gently crushed and macerated for a short time on the flavor full grape skins. Afterwards the must was slowly fermented in temperature controlled casks, to protect and develop the fine fruity aromas of the grape variety. The natural residual sugar was kept by cooling and stopping the fermentation process. Aging in stainless steel and large wooden casks with great care and a long ripening period on the fine lees shaped this elegant and multifaceted Riesling.

Scent of apricot, vineyard peach, nectarine, bergamot and flintstone. Dense, vigorous, complex with an lively interaction of natural sweetness and acidity. Intricate on the palate with a lively finish.

Roasted Melatte pigeon with beetroot waffles, cranberries and onion jus

Lightly jellied woodruff consomme with white chocolate mousse and strawberry sorbet
